## **Lobby Your MEP For Tibet**

1950 To 2016 66 Years Of Tibetan Resistance To China's Tyranny

As Tibetans continue to struggle for their national independence and cultural survival this year it's important as ever to call upon Governments to recognize the political aspirations of the Tibetan people.

## **Take A Stand With Tibet**

It is also very helpful to ensure that your MEP understands that Tibet was an independent nation, which has been illegally occupied.

## **Important Actions That Can Help**

Contact your MEP via this link: <http://www.europarl.europa.eu/meps/en/map.html> and send them this document link on Tibet's independence <http://issuu.com/tibettruth/docs/tibetwasindependent>

Request your MEP to ask the following question to Federica Mogherini, High Representative of the European Union for Foreign Affairs and Security Policy

**Will the High Representative of the European Union for Foreign Affairs and Security Policy acknowledge that Tibetans inside Tibet are protesting against Chinese rule and, as well documented media and eyewitness reports testify, are demanding independence?**

Thanks for your support
